## DETAILED ACTION

### *Reasons for Allowance*

1. Claims 1-9, and 11 (*renumbered as 1-10, respectively*) are allowed.
2. The following is an examiner's statement of reasons for allowance:

**Claim 1** is allowed because the closest prior art, Kim (US 6,393,011), either singularly or in combination, fail to anticipate or render obvious a modem performing a method of compensating for intermodulation distortion (IMD) from a signal received from another modem comprising the steps of: preprocessing to minimize effects of impairments other than IMD, to derive best estimates  $x'$  of received values that would correspond to a set of transmit values  $y$ ; deriving an IMD based constant  $I$  from  $x'$ ; and removing an IMD component from the received estimates  $x'$  to derive an IMD removed new estimate  $x''$  in accordance with an equation:  $x'' = x' - I (by^3)$  where  $b$  is a system constant.

**Claims 2-9 and 11** are allowed as being dependant on an independent claim that have been allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
